Winter Storage with us reserves your boat slip for the 2025 season

Inside storage boats are stored off site and not accessible during winter months. Boats stored outside are accessible by appt only. *If bottom is extremely fouled and or has zebra shells cleaning will be more.

Engine winterize includes draining block of water, then running on antifreeze. Checking gear oil and engine oil and advising if change needed (at additional cost) Removing hull plug. Disconnecting battery.

Spring summarizing (In spring) is recommended at additional cost to maintain winterize warranty. While you can perform this service yourself, it is highly recommended that we summarize so that your boating experience in spring is turnkey, and our professional team can spot problems before they begin.

Spring launch fees are NOT included with summer boat slip rental. There is a charge to remove wrap in spring.
